In the Neptun system, **students are responsible for preparing invoices and company accounts**. They are free to do this until the second working day before the payment deadline.

If the student does not do so, the Finance Office will prepare an invoice in the student's name for each active invoice without invoice on the working day before the payment deadline.

Thereafter, it is possible to modify the **invoice for a fee of HUF 1,000** per cancellation account.

When the commitment form is handed in, the Faculty Business Office will prepare the invoice due for that semester, but it must be printed and sent to the student's partner.
