

Krishna-valley as a Model for a Hub of a Network of Small and Medium Sized Ecovillages

Zoltan Hosszu

Budapest - 2018

Where is Krisna-valley?

Krishna-valley in numbers

25 years

290 ha

150 volunteers

42 bulls & cows

11 divisions

44 departments

63 buildings

Krishna Valley

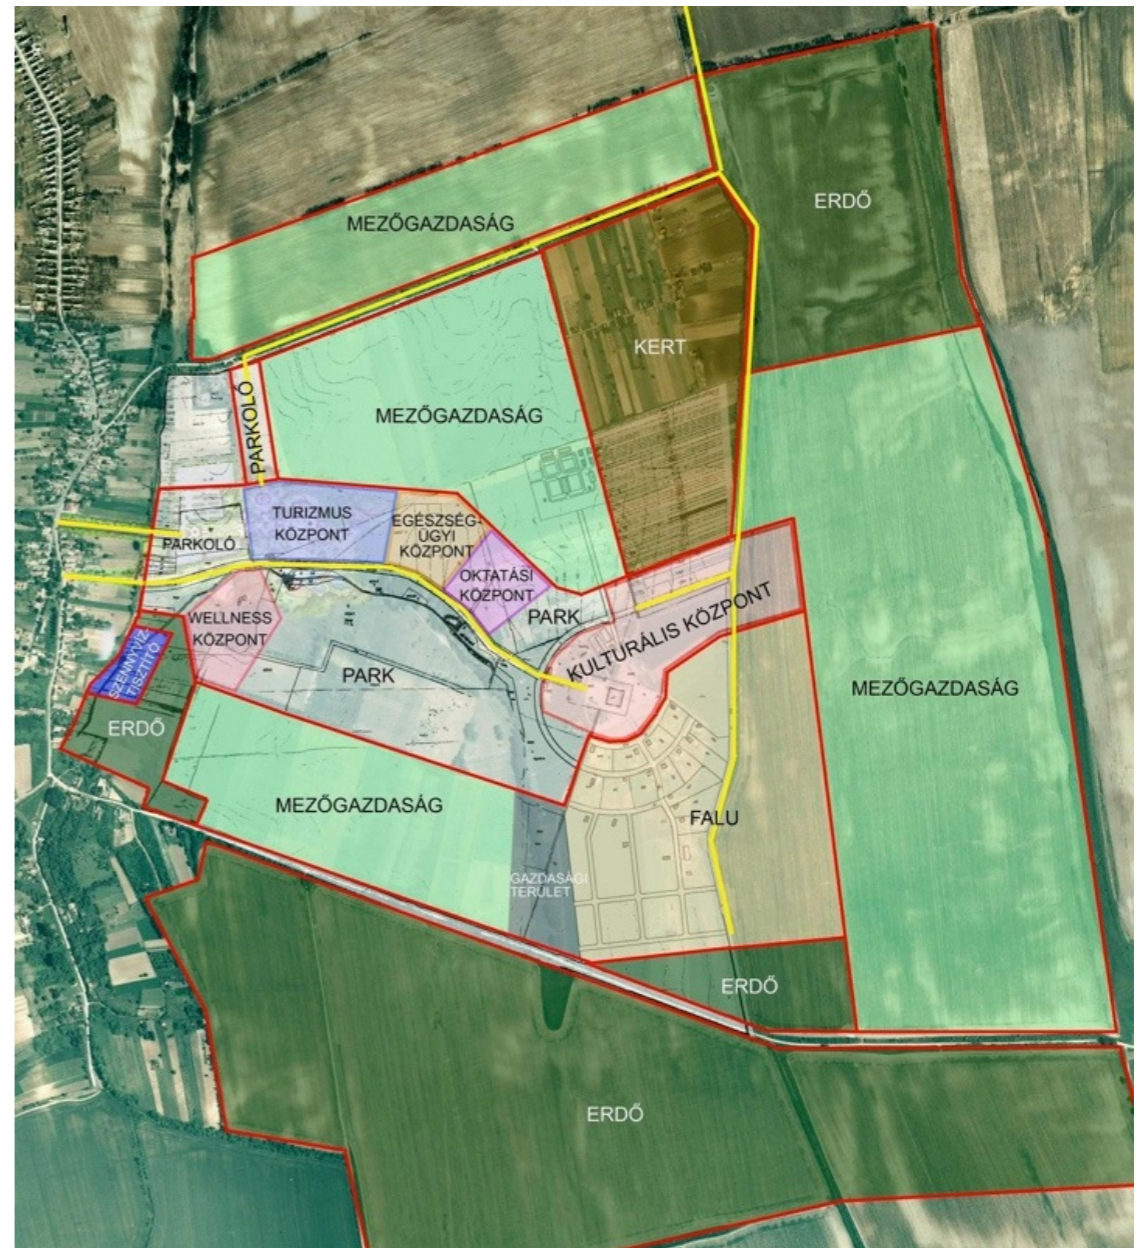

Sustainability in Focus

Development of the

Society

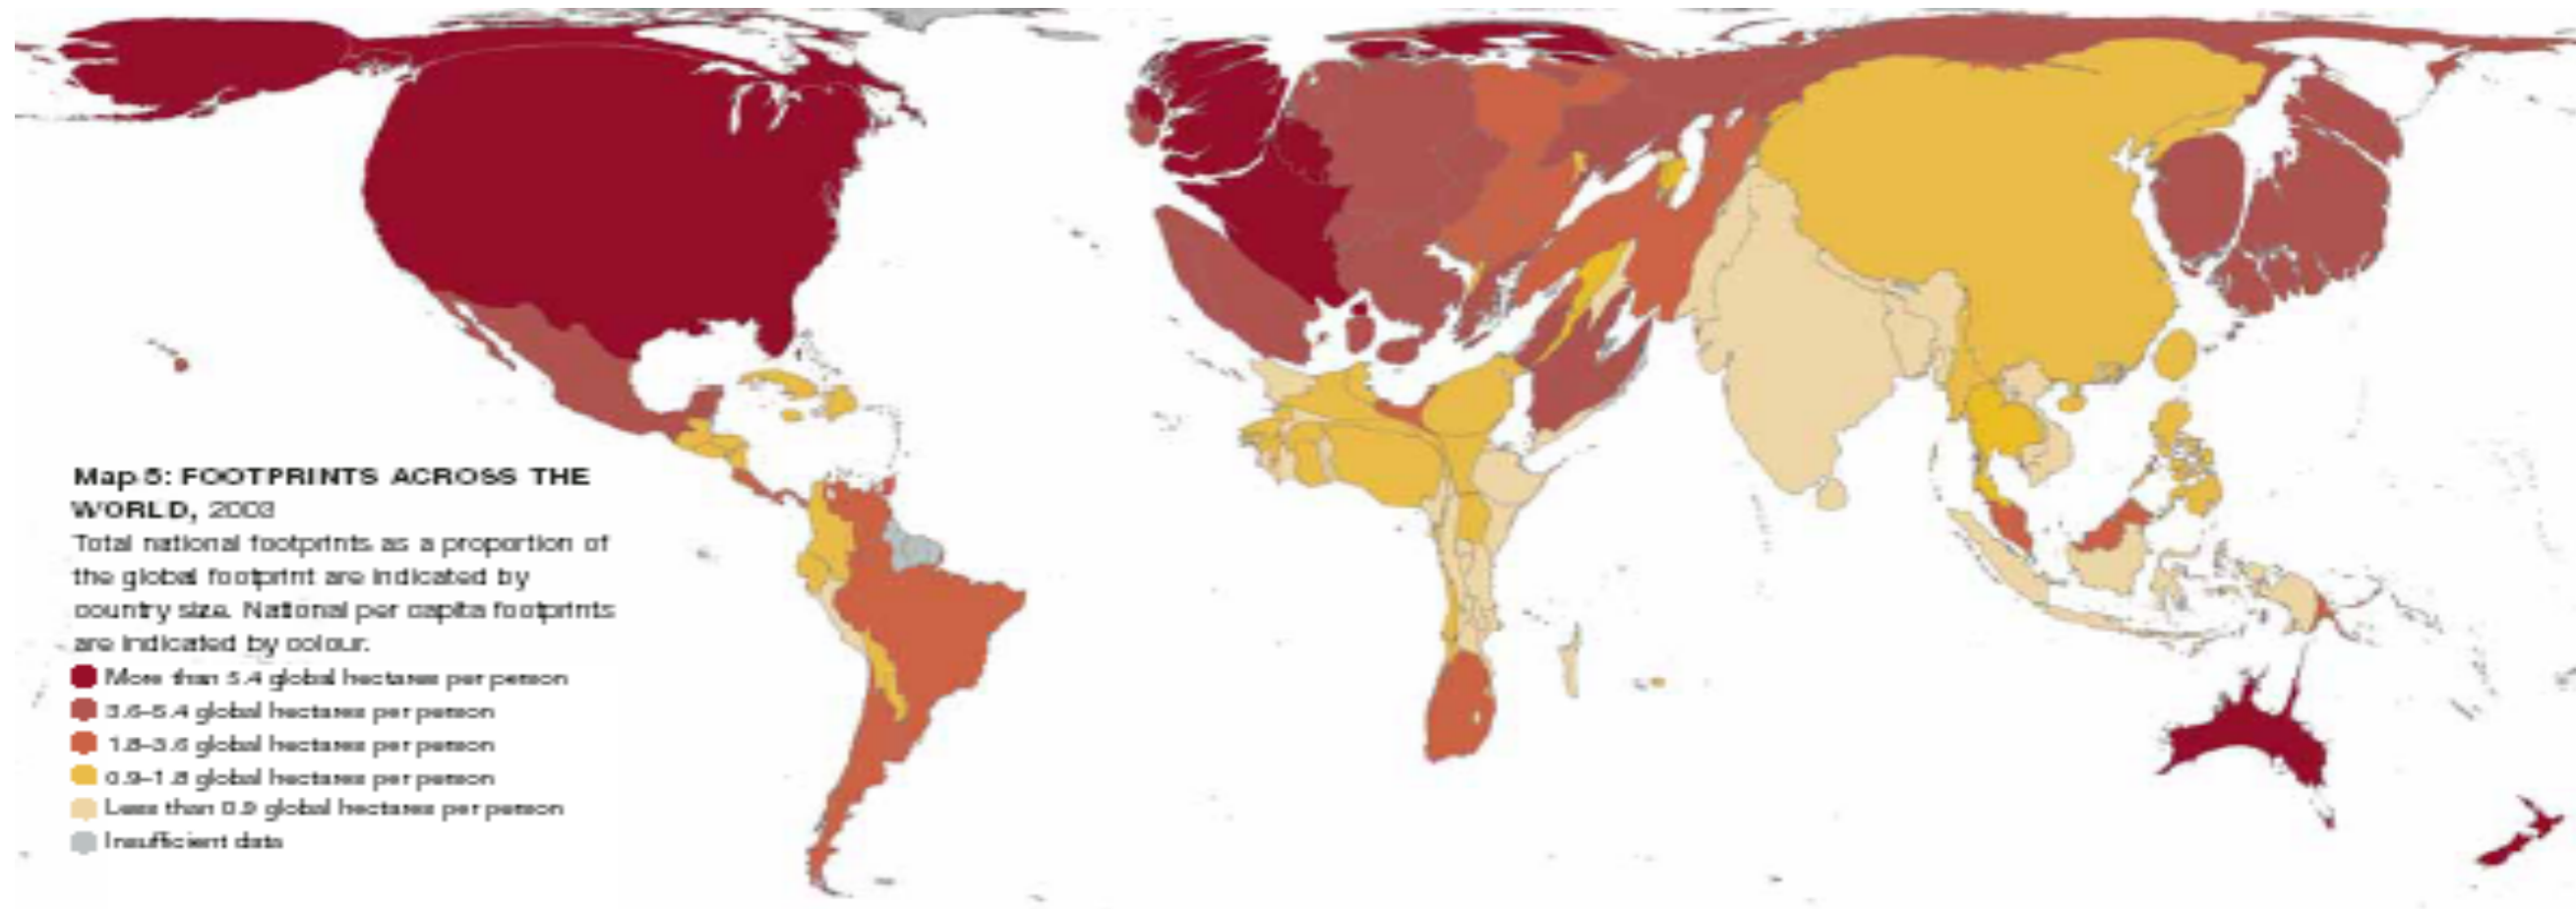

Economy

Environment

Ecological footprint - 3.7 ha

The world - 2.3 ha

USA - 9.6 ha

Pakistan - 0.7 ha

25-30% larger carbon footprint than the world

Krishna Valley - 1.4 ha

The levels of eco-consciousness

The Individual

Lifestyle and thinking in
harmony with the ecosystem

The Society

Developing an ecological ethics
based culture

The Environment

Enhancing the productivity
of the ecosystem

Basic needs

Primary

1. Food and water
2. Housing
3. Clothing
4. Education
5. Health-care

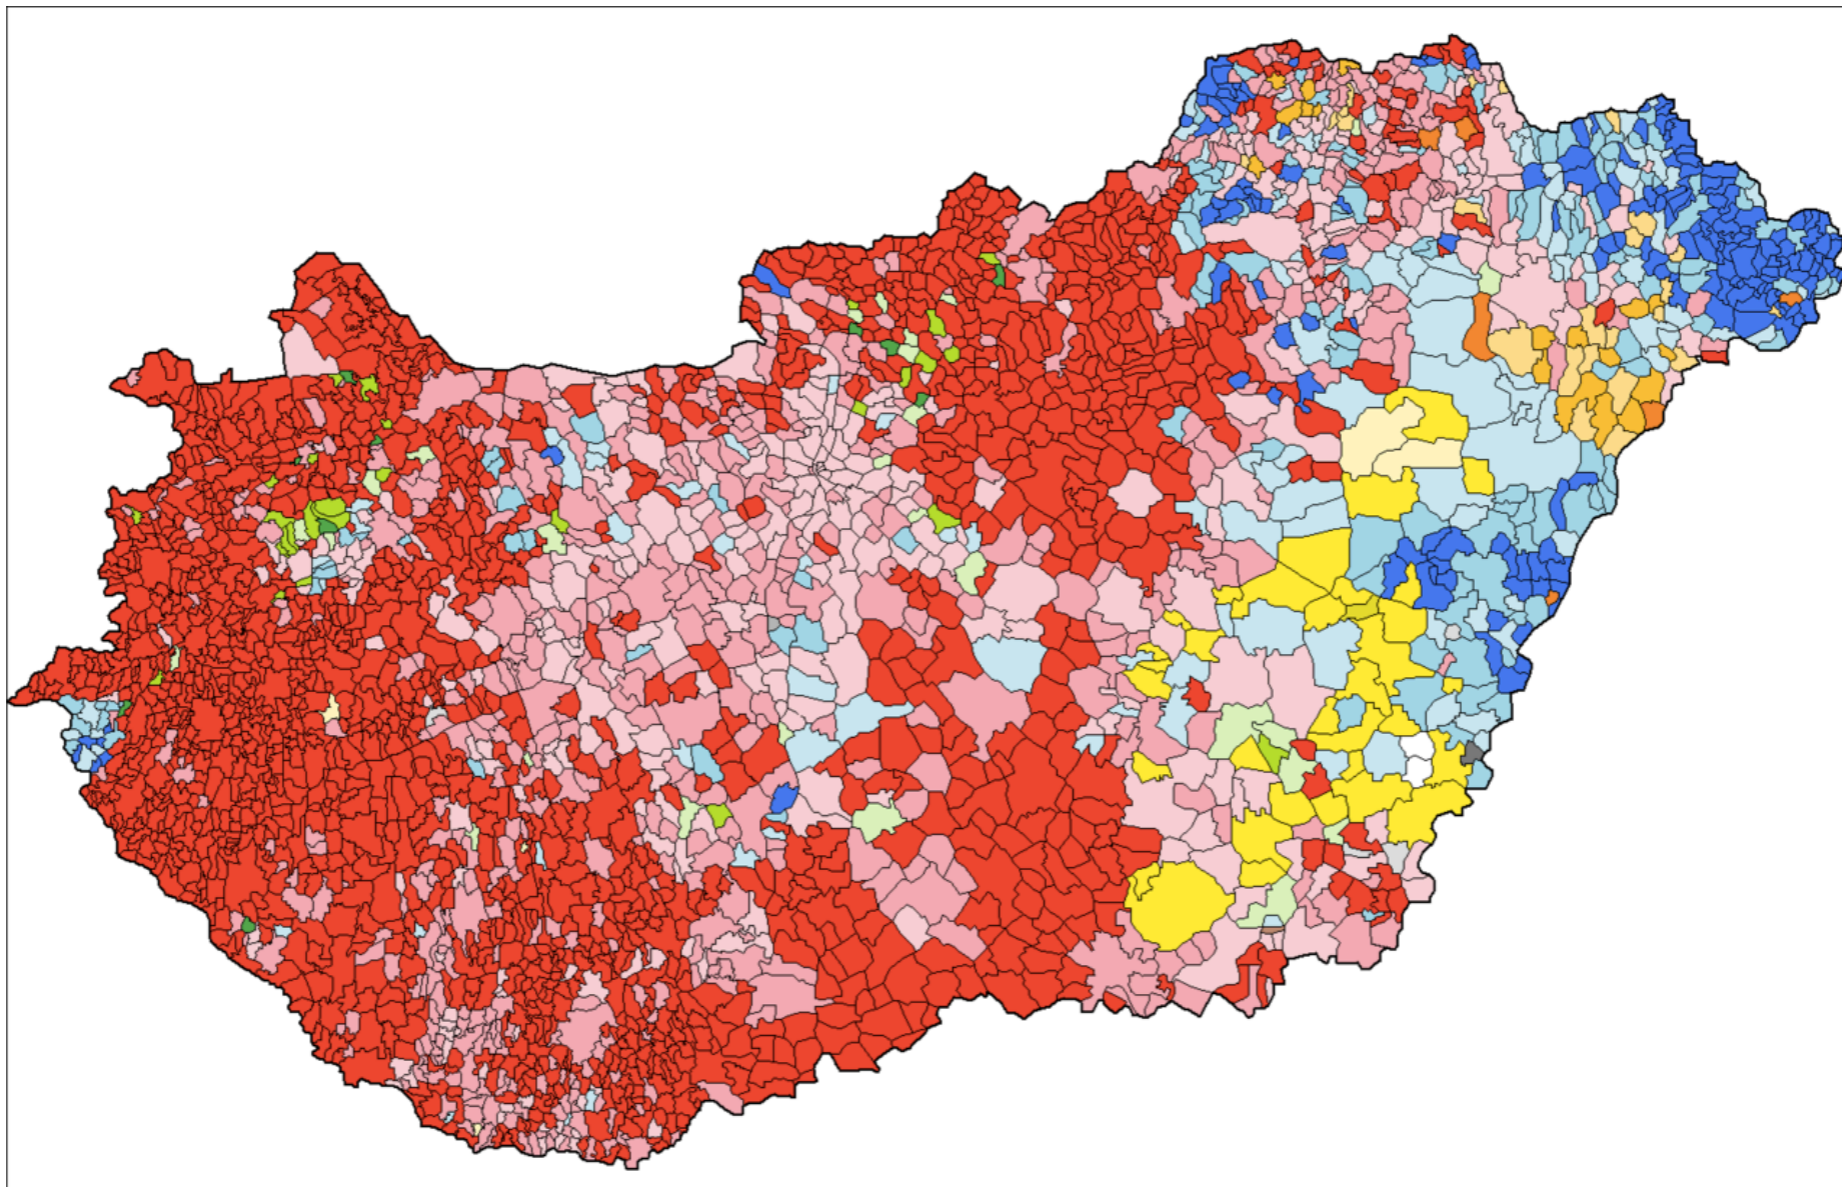

Secondary

1. Heating and lighting
2. Transportation
3. Arts
4. Security

Basic needs

Primary

Secondary

Krishna Valleys in the world?

Krishna-valley	Population	Square km
1	300	2,8
32.600	9.800.000	91.280
24.806.700	7.442.000.000	69.458.760

89.200.000 km² 69.458.760 km²

78%

Practical steps

Is it important to deal with sustainability?

Are you ready to do it?

Is going green a good solution?

„At least **51** percent of greenhouse gas emissions are coming from livestock farming.”

World Watch Institute - 2009

“One is not only responsible for what he does, but for what he does not do.”

Protagoras
